Professional Summary

Full-stack engineer with 4 years of experience in building applications using **Elixir/Phoenix, Go, Vue**. Skilled in both frontend and backend development. On the backend, I have implemented libraries written in **Elixir** (EctoForge, FastPostmanCollection) and worked with **OTP**. At work, I developed a **UI library**. Winner of local hackathons (1, 2). I love tools and practices that speed up my workflow (best practices, nvim, sofle keyboard, shortcuts)!

Professional Experience

Elixir Backend Developer

Hayot Birja

(September 2024 – Present)

- Development of software for Tenders/Selections with a strong focus on **GenServer** interaction
- Enhanced key system functionality such as an OTP-based Scheduler and improvements/development of validation and CRUD generation libraries
- Refactored part of the project from **legacy** to a new view logic, which accelerated development by 17%
- Close support and maintenance of the project's Production vers

Full-Stack Engineer

IT Analytics Company

(September 2023 – September 2024)

- Implemented a set of business tasks related to user roles, accounting, and pawnshop operations
- Improved team performance by 42% through custom-built libraries
- Increased development speed by 23% with code snippets integrated into **VS Code**

- Designed the project architecture using **Phoenix/Vue**
- Set up **Deploy/Docker** for the project
- Led a small team of three people

Backend Developer

IT Analytics Company

(June 2021 – September 2022)

- Implemented a set of tasks related to integrating OFD into the software for cash registers
 - Developed a cash register interface within tight deadlines
 - Daily responsibilities included maintaining legacy code and supporting the frontend on **jQuery/Old Phoenix**
-

Education

Technical Programmer

College Graduated: 2022

Achievements

- **Winner of local hackathons from Terricon Valley:**
 - School Wars Hackathon project
 - Project for MedTech Hackathon
- **Personal project: Novella Designer**

A sample feature from the personal project: Example

Projects

Novella Designer

- **Description:** Novel editor and publishing platform
- **Technologies:** Vue 3, Quasar, Phoenix/Elixir
- **Link:** Novella Designer

ecto_forge

- **Description:** A library for Ecto, enabling convenient model usage and CRUD operation generation in seconds
- **Link:** Hexdocs

fast_postman_collection

- **Description:** Generates Postman collections based on Phoenix Router
 - **Link:** [GitHub](#)
-

Skills

Frontend Development:

- Vue 3, Nuxt 2/3, Quasar, State Management: Pinia, Vuex, Vanilla JavaScript, Tailwind
- Dart/Flutter

Backend Development:

- Elixir/Phoenix, Goo, PostgreSQL, OTP
- Django/Rest Framework, Docker

Languages:

- English B1, Dart, Python, JavaScript

Soft Skills:

- Есть опыт руководством командой, Легко довожу задачи до конца, Упорный, Разговорчивый
